

Marijana Mirchevski

Full Stack Web Developer

Las Vegas, NV | 702-465-7151 | marijana.taseska@gmail.com | [GitHub](#) | www.linkedin.com | www.x.com

TECHNICAL SKILLS

Front End: React.js, Redux, Hooks, Hooks & Context API, Jest (Testing Library), Yup, Axios, JavaScript[ES6+], HTML, CSS

Back End: Node.js, Version Control (Git CLI, GitHub), Development Tools (VS Code), Deployment Platforms (Vercel, Heroku)

Additional: Algorithms, Debugging, Web Deployment

PROJECTS

Human Rights First: Asylum Report Generator, *Front-end Developer* - React | Node | LESS

[GitHub](#)

- Developed and styled a responsive landing page using React and LESS to match provided design mockups, ensuring pixel-perfect alignment and browser compatibility
- Integrated API data into React components, replacing static data with live information from endpoints using Axios and JavaScript (ES6) for dynamic data visualizations.
- Implemented authentication using Auth0, managing secure login/logout flows, and creating a dynamic Profile Page to display user information based on authentication status.

Advanced Web Applications, *Full Stack Developer* - React | Node | Jest(Testing Library)

[GitHub](#)

- Utilized authentication tokens for successful login and navigation between different components.
- Investigated HTTP messages using Network tab, including request payloads and server responses.
- Conducted testing of the Spinner component to ensure its functionality aligns with project requirements.

Express Middleware Module Project, *Backend Developer* - Express | Node.js

[GitHub](#)

- Developed middleware to log requests, validate user IDs, validate user data, and validate post content.
- Used endpoints in users-router.js to manage posts for users.
- Tested middleware and endpoints manually using Postman and HTTPie, as well as automatically with npm test

EXPERIENCE

Jaleo By Jose Andres, Food server

2020-2024

- Utilized effective upselling techniques to promote specialty dishes and beverages, contributing to increased average check totals and driving overall restaurant revenue in a high-traffic environment.
- Collaborated with kitchen and bar staff to ensure timely and accurate delivery of orders, maintaining exceptional standards of food presentation and quality expected in a world-class venue.

Shish Kabob House, Restaurant Manager

2016 - 2020

- Utilized communication skills to lead a team of 20, ensuring accurate and efficient delivery of services, showcasing the ability to collaborate effectively under pressure.
- Coordinated large catering events, including booking large parties, creating Banquet Event Orders (BEOs), and ensuring smooth execution from preparation to delivery, resulting in high client satisfaction.
- Improved operational efficiency by implementing streamlined processes for order taking, service delivery, and inventory management, leading to increased customer satisfaction and repeat business

SZU Expert Center for Accident Damage Investigation GmbH, Data Management Specialist

2013 - 2020

- Managed a high volume of claims with a 95% on-time completion rate, demonstrating excellent time management and the ability to handle multiple tasks efficiently.
- Improved document accuracy by 15%, implementing process improvements and showing a track record of attention to detail and process optimization that can be applied to improving troubleshooting procedures.
- Developed strong relationships with clients by providing clear communication and efficient claims handling, resulting in a 20% increase in customer satisfaction ratings.

EDUCATION

BloomTech Graduate of the Full Stack Web Development Program

2024 - 2024

South East European University (SEEU) Bachelor of Business Administration

2010 - 2006
